

# Tring School Buyback Scheme

We have decided to offer a buyback scheme that will allow students to purchase a second device at our special educational price providing that the first one is older than two years or is no longer in good working order and has been paid for in full. Please note that the devices will need to be assessed by our IT team to confirm conditions before an offer is finalised. A buyback allowance may be offered dependant on the condition of the original device which will be offset against the cost of a second device. The balance will need to be paid in full before delivery to the student; The licence, worth £19, can be transferred from one device to the other.

Please see below for a guide on our buyback prices
