2 July 2021

Dear Parent/Carer

## Re: Year 7 Summer Science Club workshop- 'Histology CSI'

We would like to invite your child to a Science Club workshop that we are running for selected Year 7 students on Thursday 15 July 3:00 pm - 4:15 pm at school in MV9.

This workshop will be run by the Tring School Science Department and will include problem solving, practical work and analytic skills within a CSI Histology scenario. Students will be using microscopes to look at histology slides of parts of the body of the 'victim' from a crime scene. Students will be taught how to compare how healthy and unhealthy tissues from various organs differ in appearance and students will use their findings to identify the victim from a range of 'missing persons'.

If your child wishes to attend this workshop, please complete the google form below by Thursday 8 July giving your permission and so that we know who will be attending.

[Google Form](#) for permission to attend the workshop. If there is a problem completing this form as a parent, it can be accessed via your child's account/chromebook.

We have 30 places on this workshop and places will be allocated on a first come first served basis. Once all places have been filled, I will send an email to confirm your child's place, following the permission form deadline.

Yours faithfully

Katie Ross
