Dear Parent/Carer

Re: Year 8 Summer Science Club workshop- 'CSI'

We would like to invite your child to a Science Club workshop that we are running for selected Year 8 students on Thursday 15 July 3:00 pm - 4:15 pm at school in MV7.

This workshop will be run by the Tring School Science Department and will include problem solving, practical work and analytic skills within a CSI scenario. We will be using DNA gel electrophoresis, 'blood' tissue typing techniques to solve a crime and we will be analysing maggot growth (forensic entomology) to estimate the time of death.

If your child wishes to attend this workshop, please complete the google form below by Thursday 8 July giving your permission and so that we know who will be attending.

[Google Form](#) for permission to attend the workshop. If there is a problem completing this form as a parent, it can be accessed via your child's account/chromebook.

We have 30 places on this workshop and places will be allocated on a first come first served basis. Once all places have been filled, I will send an email to confirm your child's place, following the permission form deadline.

Yours faithfully

Katie Ross

Assistant Subject Leader for Science kross@tringschool.org
